

Technical Rule no. 02 Rev. 1 P-GO

(under article 4 of the Rules governing the regulated market and the platform for registering bilaterals of guarantees of origin, successfully verified by the Director of Markets of "Autorità per l'energia elettrica e il gas" on 22 December 2011, as subsequently amended and supplemented)

Title	Access to the information system and operation of the Regulated Market (M-GO) and of the Bilaterals Platform (PB-GO)
Reference Legislation	Article 2, para. 2.1 b); Article 6, para. 6.1; Article 10, para. 10.1; Article 18, para. 18.3; Article 23, para. 23.4; Article 24, paras. 24.4, 24.8 and 24.9; Article 25, para. 25.1; Article 28, para. 28.1; Article 32, paras. 32.1, 32.2 and 32.3; Article 35, paras. 35.1 and 35.3; Article 38, para. 38.1; Article 40, paras. 40.2 and 40.3; and Article 67, para. 67.1 - Rules governing the regulated market and the platform for registering bilaterals of guarantees of origin
Published on 9 September 2013	

1. Foreword

Article 2, para. 2.1 b) of the Rules governing the regulated market and the platform for registering bilaterals of guarantees of origin (hereafter P-GO Rules) defines the access profile as follows: *i.* if the Participant is present in the GO Registry with a single access profile, the access profile - among those identified in the Technical Rules - that GSE has assigned to the Participant upon entry into the GO Registry, through which the Participant takes part in the M-GO and/or the PB-GO; *ii.* if the Participant is present in the GO Registry with multiple access profiles, each of the access profiles - among those identified in the Technical Rules - that GSE has assigned to the Participant upon entry into the GO Registry, through which the Participant takes part in the M-GO and/or the PB-GO.

Article 6, para. 6.1 of the P-GO Rules provides that access to GME's information system shall take place through the Internet, in accordance with the procedures and within the time limits defined in the Technical Rules, or by any other means defined therein.

Article 10, para. 10.1 provides that Participants shall have access to the P-GO under special procedures defined in the Technical Rules. These procedures shall guarantee the identification of Participants and authenticate their transactions.

Article 18, para. 1 provides that the data mentioned in para. 18.2 shall have effect on the dates specified in the Technical Rules.

Article 23, para. 23.4 provides that each of the types of GO mentioned in para. 23.3 above shall be further classified on the basis of the generation periods defined in the Technical Rules.

Article 24, para. 24.4 provides that the opening and closing hours of the sessions of the M-GO shall be established in the Technical Rules.

Article 24, para. 24.8 provides that the Participant may take part in the M-GO only through one or multiple access profiles – as identified in the Technical Rules - corresponding to the single access profile or to the multiple access profiles through which he/she/it is present in the GO Registry, respectively.

Article 24, para. 24.9 provides that, if the Participant has multiple access profiles, his/her/its participation in the M-GO shall take place separately for each access profile, under the procedures and within the time limits established in the Technical Rules.

Article 25, para. 25.1 provides that Participants shall enter trading orders into the M-GO under the modalities and within the time limits indicated in the Technical Rules, specifying at least the following data for each type of GO and the related generation period:

- a) identification code of the Participant entering the order;
- b) type of order (buy/sell);
- c) offered volume;
- d) unit price for the offered volume.

Article 28, para. 28.1 provides that, within the time limit indicated in the Technical Rules, GME shall publish the results of the M-GO session, specifying at least the following data and information for each type of GO and the related generation period:

- a) minimum price and maximum price of the session;
- b) volume traded in the session;
- c) reference price of the session;
- d) volume and price of each concluded transaction in anonymous form.

Article 32, para. 32.1 provides that requests for registration on the PB-GO shall be entered under the procedures and within the time limits defined in the Technical Rules.

Article 32, para. 32.2 provides that the Participant may take part in the PB-GO only through one or multiple access profiles – as identified in the Technical Rules – corresponding to the single access profile or to the multiple access profiles with which the he/she/it is present in the GO Registry.

Article 32, para. 32.3 provides that, if the Participant has multiple access profiles, his/her/its participation in the PB-GO shall take place separately for each access profile, under the procedures and within the time limits established in the Technical Rules.

Article 35, para. 35.1 provides that, in compliance with the procedures and within the time limits specified in the Technical Rules, GME shall publish at least the following data and information (in aggregated form) about the registrations of bilateral transactions of GOs which have been concluded on the PB-GO:

- a) registered volumes of GOs with the specification of their types as per article 23, para. 23.3 and of the related generation periods as per article 23, para. 23.4;
- b) minimum price and maximum price;
- c) average price weighted for the registered volumes.

Article 35, para. 35.3 provides that, for the purposes of the transfer of ownership of the GOs registered in accordance with article 32, para. 32.4 b), GME shall notify GSE of the conclusion of the related registrations, under the procedures identified by GME and GSE in an appropriate agreement and within the time limits indicated in the Technical Rules.

Article 38, para. 38.1 provides that, in compliance with the procedures and within the time limits specified in the Technical Rules, GME shall publish at least the following data and information (in aggregated form) about the registrations of bilateral transactions of GOs carried out as per article 37 above (registration of results of auctioning procedures):

- a) registered volumes of GOs with the specification of their types as per article 23, para. 23.3 and of the related generation periods as per article 23, para. 23.4;
- b) minimum price and maximum price;
- c) average price weighted for the registered volumes.

Article 40, para. 40.2 provides that, in the case referred to in para. 40.1 a), GME shall - under the modalities indicated in the Technical Rules - notify Participants of the occurrence of the emergency condition and of the new opening time of the session of the M-GO or of the PB-GO. If, by the new opening time of the session of the M-GO or of the

PB-GO, the emergency condition persists, GME shall temporarily suspend transactions in the M-GO or on the PB-GO.

Article 40, para. 40.3 provides that, in the cases referred to in para. 40.1 b) and c), GME shall suspend transactions in the M-GO or on the PB-GO and notify Participants – under the modalities indicated in the Technical Rules – of the occurrence of the emergency condition.

Article 67, para. 67.1 provides that, within GME's information system, Participants holding multiple access profiles may move their GOs from one of their ownership accounts to another of their ownership accounts, each associated with each of the above profiles, under the procedures and within the time limits established in the Technical Rules.

2. Access to the information system of the P-GO (art. 2, para. 2.1 b); art. 6, para. 6.1; art. 10, para. 10.1; art. 24, para. 24.8 and 24.9; art. 32, paras. 32.2 and 32.3 - P-GO Rules)

2.1 Registration of the participant - company

After receiving the notification of admission to the P-GO from GME and with a view to making transactions in the M-GO and/or registrations on the PB-GO, the company or individual (in the latter case, follow the instructions of para. 2.2) must register with the platform. To do so, the company or individual must have at least one active ownership account in GSE's GO Registry. Registration cannot be completed without specifying the number of the ownership account.

You may register through the “**Registrazione società**” (registration of the participant - company) link, available at www.mercatoelettrico.org, in the “The Markets/Access to GME's markets/P-GO/**Access to the P-GO**” section, and fill in the following form (Figure 1):

In the first part of the form, specify whether you have at least one ownership account in GSE's GO Registry; this is a pre-requisite for being authorised to enter orders into the M-GO and/or on the PB-GO.

The compulsory fields are:

- **Platform where you wish to operate:** select the platform/s specified in the participation application;
- **ISO code – VAT number:** enter the code of your country (drop-down menu) and your VAT number. If the taxpayer's number of the company matches its VAT number, enter the only available code in both fields;
- **Password:** select the password of the company; the password, to be memorised and kept confidential by the legal representative of the company, will be necessary for the subsequent registration of the access profile/s (para. 2.3) and for additional registrations of profiles, if any, in the future.

After completing all the fields, give your consent to the processing of your personal data and press "**Invia**" (submit) to enter your registration.

Figure 2

consenso per il trattamento dei dati

I dati acquisiti saranno utilizzati da GME S.p.A, Largo Giuseppe Tartini 3/4, 00198 Roma, anche con l'ausilio di mezzi elettronici e/o automatizzati, esclusivamente per lo svolgimento delle attività di GME S.p.A.. Tali dati potranno essere comunicati a società facenti parte del gruppo GSE S.p.A.. Il mancato consenso dell'interessato al loro trattamento comporterà l'impossibilità da parte di GME S.p.A di dar corso all'attività di validazione e di certificazione per consentire l'accesso alla piattaforma GO, ai sensi dell'art. 7, comma 4, lettera a), del D.Lgs. n. 196/2003.

Preso atto dell'informativa di cui sopra, autorizzo il trattamento e la comunicazione dei miei dati da parte di GME S.p.A. nei limiti di quanto previsto dal sopracitato Decreto legislativo.

If your registration has been successful, you will get a summary report with the **ID Operatore** (Participant's code); this code, to be memorised and kept confidential by the legal representative of the company, will be necessary – together with the password – for the subsequent registration of the access profile/s (para. 2.3).

2.2 Registration of the participant – individual

After receiving the notification of admission to the P-GO from GME and with a view to making transactions in the M-GO and/or registrations on the PB-GO, the individual must register with the platform. To do so, the individual must have at least one active ownership account in GSE's GO Registry. Registration cannot be completed without specifying the number of the ownership account.

You may register through the “**Registrazione operatore**” (registration of the participant – individual) link, available at www.mercatoelettrico.org, in the “The Markets/Access to GME's markets/P-GO/**Access to the P-GO**” section, and fill in the following form (Figure 3):

If your registration has been successful, you will get a summary report with the **ID Operatore** (Participant's code); this code, to be memorised and kept confidential by the applicant, will be necessary - together with the password - for the subsequent registration of the access profile (para. 2.3).

2.3 Registration of one or multiple access profiles of the Participant on the P-GO

To access the market (M-GO) and/or the bilaterals platform (PB-GO), each company/individual that has been admitted to the P-GO must register his/her/its access profile, as specified in the participation application. If the Participant holds multiple ownership accounts in GSE's GO Registry, he/she/it must register each of the access profiles associated therewith.

To access the registration form (Figure 5), click on the “**Registrazione Profilo**” (registration of the profile) on the www.mercatoelettrico.org website, in the “The Markets/Access to GME’s markets/P-GO” section.

To register the profile, both companies and individuals must fill in the registration form (compulsory fields). Before filling in the registration form, enter the **ID Operatore** (Participant's code) issued by the system at the end of the registration of the Participant (company or individual) and the selected Participant's **Password** (see para. 2.1 or para. 2.2).

During registration, specify:

- **Type of access profile:** "selling company" and/or "Producer" and/or "Trader";
- **GSE's account code:** enter the GO ownership account assigned by GSE for the access profile/s;
- **Contact person** (compulsory field): click on "**Nuovo referente**" (new contact person) and enter the data of the contact person specified in the P-GO participation application, i.e. the person to which communications, including those concerning the operational management of the platform, are to be sent (Figure 6).

You may register multiple persons, if specified in the P-GO application form, by clicking on "Nuovo Referente" (new contact person) again.

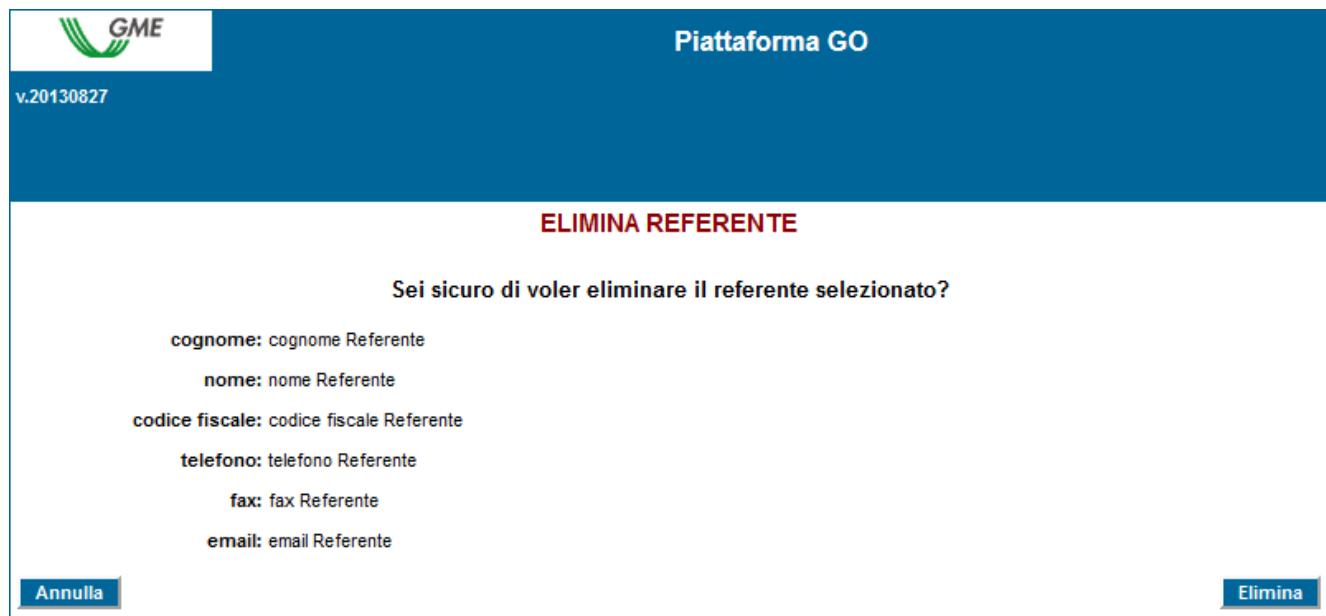

- the **Role** to be associated with the single profile of access to the M-GO and/or PB-GO:
 - a) **General:** if you have this access profile, you may carry out any type of operation on the selected platform;
 - b) **Viewer:** if you have this access profile, you are only authorised to view the data available on the selected platform.

The **password** selected upon registration of the operating profile will be necessary for access to the market sessions and/or to the bilaterals platform through such profile.

After completing all the fields and giving your consent to the processing of your personal data, press the "**Invia**" (submit) button to enter the registration. If the registration has been successful, the system will issue the profile ID; this profile will be necessary, together with the selected password, to access the P-GO through such access profile.

The registration of the Participant (company or individual) and of the access profile on the platform must be subsequently validated by GME.

The legal representative of the company or the individual must memorise and keep the **profile ID** and the respective **password** confidential. Through these credentials, you may:

- 1) access the finance management form;

- 2) access the platform for registration of bilateral transactions (if the Participant is authorised to operate also on the PB-GO);
- 3) access the market sessions (M-GO);
- 4) view the market statistics (M-GO).

The possible revocation of the Participant's or individual's authorisation (Participant's ID and password) will involve the concurrent revocation of the authorisation of all the profiles associated with it (Profile ID and Password).

3. Market sessions (art. 18, para. 18.3; art. 23, para. 23.4; art. 24, para. 24.4; art. 25, para. 25.1; art. 28, para. 28.1, P-GO Rules)

3.1 Trading in the M-GO

The sessions of the GO market take place from 9:00 to 12:00 of the days posted on GME's website.

Under article 18, para. 18.3 of the P-GO Rules, the data about each party authorised to participate in the market are communicated by GSE on the day before the one of each session and they will produce their effects in the session to which they refer. The system does not allow parties with an inactive account with GSE to participate in the M-GO sessions.

Participation in a market session takes place distinctly for each of the access profiles with which the Participant has made his/her/its registration under para. 2.3 above. Therefore, if the Participant has multiple access profiles, participation in the M-GO may take place only with a single access profile at a time.

To this end, select the "**Sessioni di mercato**" (market sessions) link available at www.mercatoelettrico.org, in the "The Markets/Access to GME's markets/P-GO" section and enter the **ID Profilo** (profile ID) and the related **password**.

During the opening time of the market, the current session will have the "**Aperta**" (open) status.

Type (other other months, other February, other January, wind other months, wind February) – volume - operational deposit ...

Rejected orders

Order ID – type (hydro February) – price... - volume of certificates - type (purchase) - details

The data of the screen are automatically updated; to freeze the form, select “Non aggiornare” (do not update) in the “**Imposta refresh**” (set refresh) box in the top left part of the screen (Figure 9).

By default, the screen will display all the buy and sell orders that are present at that time in the market, whatever the type of GOs involved.

Through the drop-down menu (view type – wind January), you may select the type, classified by year, energy source and generation period.

The order books divide the GOs not only by year and type but also by generation period, as indicated below:

- “GOs January” pertaining to the month of January of the year “y” and valid 12 months beginning from the generation period;
- “GOs February” pertaining to the month of February of the year “y” and valid 12 months beginning from the generation period;

- “GO other months” pertaining to the remaining months of the year “y” and valid until 31 March “y+1”.

For each selected type, the top part of the screen displays the following general data:

- The reference price of the previous session (average price per MWh, weighted for the related volumes, of all transactions carried out during a given session of the M-GO);
- The prices of the latest three transactions concluded;
- The minimum and maximum price of the transactions concluded in the market until that time;
- The volume of GOs traded until that time.

Price.... - Volume of certificates - Type (solar other months)

The “**Book Negoziazioni**” (order book) displays the **trading orders**, ranked by price priority and, in case of equal price, by time of entry.

The data shown for each order are as follows:

- **Type (classified by year, source and generation period)** of GOs;
- **Volume** of GOs;
- **Price** for each GO (excluding VAT).

Through the drop-down menu  (display type: wind January), you may view all the trading orders entered into the order book for the selected type of GOs (top left - Figure 9).

3.1.2. M-GO personal order book

In the central part of the screen (Figure 9), you may see the **Book personale** (personal order book), showing the current profile trading orders, entered during the current market session and not yet matched.

These orders are highlighted in blue in the order book.

For each entered order, the table will show one row with the following data (Figure 11):

- **Type (classified by year, source and generation period)** of GOs;
- **Volume** of GOs covered by the entered order;
- **Price** for each GO (excluding VAT).

3.2. Entry of orders into the M-GO

To enter a buy or sell order into the market through your profile, click on “**Nuova Offerta**” (new order) (top right - Figure 9).

In the order entry form (Figure 14), complete the following fields:

- **Type of order:** purchase or sale;
- **Type of GO** (e.g. 2013_Eolico - wind_ January);
- **Price per MWh** (excluding VAT), specified with two decimals. The price may have the following values:

a) with price limit

The specified price is the lower limit for sell orders and the upper limit for buy orders at which the matching is done;

b) market price (i.e. without price limit)

The orders are matched with the best orders of opposite sign entered into the order book, pursuant to the P-GO Rules.

- **Volume of GOs.** The minimum tradable volume is equal to 1 GO.

Figure 14

The screenshot shows a web-based order entry form for GME. The form fields include:

- tipo offerta:** Radio buttons for **Acquisto** (selected) and **Vendita**.
- tipologia GO:** A dropdown menu showing **2013_Altro_AltriMesi**.
- prezzo a MWh:** Radio buttons for **a mercato** (unchecked) and **con limite di:** (checked). Below this is a text input field with the placeholder **€/MWh**.
- quantità certificati:** An input field containing a placeholder box.
- taglia certificato:** An input field containing the value **1** followed by **MWh**.
- controvalore:** An input field with a placeholder box and a right-aligned button labeled **Calcola**.
- Buttons:** At the bottom are two buttons: **Ordina** (blue) and **Annulla** (white).

Figure captions

- Type of order – purchase – sale
- Type of GO – other other months
- Market price
- Price per MWh
- with price limit of
- Volume of certificates
- Certificate size
- Value
- Calculate
- Submit - Cancel

By clicking on **Ordina** (submit), you will get a summary report with the value of the order **including VAT**; after checking the data, give your final confirmation of the order by clicking on **Ordina** (submit) again.

By pressing **Annulla** (cancel), you will go back to the main screen of the session.

If you click on the row with the best buy or sell order in the order book (highlighted in grey when passing the mouse over it – Figure 15, “Acquisti” - purchases - column), you may view a new order form, automatically completed with the data of the selected order, but with an opposite sign, and you may confirm or cancel such order.

3.4 Publication of the results of the M-GO

At the end of the GO market sessions, GME will publish the results on its website www.mercatoelettrico.org, in the “**Market Results**” section, specifying the following data and information about each session:

- a) Minimum price and maximum price;
- b) Volume traded;
- c) Reference price.

4 . Trading on the PB-GO (art. 18, para. 18.3; art. 32, para. 32.1; art. 35, paras. 35.1 and 35.3; art. 38, para. 38.1; and art. 67, para. 67.1, P-GO Rules)

4.1. Registrations on the PB-GO

Pursuant to article 18, para. 18.3 of the P-GO Rules, the data about the ownership accounts of each party authorised to participate in the Bilaterals Platform are daily reported by GSE and produce their effects for the registration stages or the sessions of the PB-GO which take place on the same registration day as the one to which such data refer. If the account of a given party is not active, the system will not permit the registration of transactions on the PB-GO. Participation in the PB-GO takes place distinctly for each of the access profiles with which the Participant has registered under para. 2.3 above.

Therefore, if the Participant has multiple access profiles, his/her/its participation in the PB-GO may take place only with a single access profile at a time.

To this end, to access the platform for registration of bilateral transactions of GOs, select the link available at www.mercatoelettrico.org, in the “The markets/access to GME’s markets/GO bilaterals section and enter the ID Profilo (profile ID) and password selected upon registration (para. 2.3).

Management of users – Finance management – Password management – Market statistics

From the main screen (Figure 19), you may access the Platform for registration of bilaterals by clicking on the related link.

A request for registration of a bilateral transaction entered by the selling Participant may be **accepted** or **rejected** by the buyer at any time, unless the ownership accounts of Participants have been blocked (on the day before a session of the M-GO, during its preparation or during the same session).

Bilateral transactions may be entered by selecting one of two options: **with technical adequacy verification** and **without technical adequacy verification**.

Enter order - Cancel

- **GME's technical adequacy verifications:** specify the option for registration, i.e.

- a) **with technical adequacy verification** (specified with “True” in “GME's verification” column – Figure 20a): after confirmation by the buyer, the transaction awaits validation by GME, which will confirm it on the day before the M-GO session, after checking whether the buyer has paid the value of the transaction, including VAT (where applicable).

The ownership accounts of the counterparties are updated only after validation by GME (see Technical Rule n. 03 Rev. 1 P-GO).

Unless otherwise specified by the Participant, the value of the transaction is paid to the seller with value date on the working day following the one of the M-GO session.

b) without technical adequacy verification (specified with “False” in “GME’s verification” column – Figure 20a): the ownership accounts of the counterparties are updated upon the buyer’s acceptance of the order.

In both cases a) and b), the invoicing takes place between the buyer and the seller.

- **Type:** select the reference year and the related type of GOs covered by the bilateral transaction;
- **Generation country:** select the country of generation or the “non specificato” (not specified) option;
- **Generation period:** select the generation period by specifying the month “da” (from) ... “a” (to).... (month of start and end of generation); if you wish to specify a single month, e.g. “gennaio” (January), select “da Gennaio”... (from January)....“a Gennaio” (to January);
- **Support received:** you may specify whether you received a support for generation by selecting “SI/NO/PARZIALE” (YES/NO/PARTIAL) or “NON SPECIFICATO” (not specified);
- **RECS attribute:** you may specify the RECS attribute among the data about the bilateral transaction by selecting “SI/NO” (YES/NO) or “NON SPECIFICATO” (not specified);
- **Volume:** specify the volume of GOs covered by the transaction;
- **Price:** enter the **unit price** (excluding VAT) expressed in €/MWh and specified with two decimals;
- **Buyer:** from the list of Participants, select the registered name/company name of the buying participant and the related access profile with which the latter will access the PB-GO to confirm the transaction.

Then, by pressing “**Inserire offerta**” (enter order), you will get a summary window with the data of the entered transaction and the calculation of its total value. After checking the data, you may confirm the entry of the transaction by pressing “**Conferma**” (confirm) or cancel it with the “**Annulla**” (cancel) button (Figure 22).

You may view the entered transaction in the “**Transazioni bilaterali in vendita**” (bilateral transactions of sale) (Figure 20 – red area). By clicking on the row of a sale transaction, not yet accepted by the buyer, you will get a window on which you may change the data of the transaction or cancel it.

4.1.2 Acceptance or rejection of a bilateral transaction by the buyer

In the “**Transazioni bilaterali in acquisto**” (bilateral transaction of purchase) (Figure 20 – green area), you may view the list of transactions for which the Participant, with a given access profile, has been specified as buyer. By clicking on the row for a given purchase transaction, you will get a window on which you may **accept or reject** the request for registration entered by the seller. In case of both acceptance and rejection, you must confirm the selection again.

If the seller has entered a bilateral transaction without technical adequacy verification, the latter is automatically validated upon the buyer's confirmation. In real time, the PB-GO management system will check the availability of the GOs to be sold on the ownership account associated with the selling Participant's profile in GSE's GO Registry and, if the outcome is positive, it will validate the transaction and transfer the GOs from the seller's ownership account to the buyer's one. The stage of processing and transfer of the GOs might take from a few seconds to a few minutes; in this case, you may view the transactions in the “Transazioni bilaterali in attesa di elaborazione da parte del GSE” (bilateral transactions awaiting processing by GSE) section (Figure 20).

4.1.3 Transactions awaiting GME's technical adequacy verification

If the selling participant has entered a request of registration of a bilateral transaction with technical adequacy verification and if the same has been accepted by the buyer, you will see it in the “**Transazioni bilaterali in attesa di validazione**” (bilateral transactions awaiting validation) area (Figure 20 – yellow area).

This section lists all the accepted transactions to which the Participant is counterparty (both sale and purchase transactions) and which are awaiting GME's validations and/or technical adequacy verifications.

After GME's validation of the transaction, the GOs are automatically transferred from the ownership account of the seller to the one of the buyer. The stage of processing and transfer of the GOs might take from a few seconds to a few minutes; in this case, you may view the transactions in the “Transazioni bilaterali in attesa di elaborazione da parte del GSE” (bilateral transactions awaiting processing by GSE) section (Figure 20).

The list of transactions registered and accepted on the PB-GO may be viewed by clicking on “**Transazioni validate**” (validated transactions) (Figure 20).

4.2 Publication of the results of registrations on the PB-GO

On a monthly basis, GME publishes data and information (in aggregated form) about registrations of GO bilaterals. On its www.mercatoelettrico.org website, in the “Market results” section, GME publishes the following monthly data:

- a) Volume and type of registered GOs, with the related generation period;
- b) Minimum price and maximum price;
- c) Average price weighted for the registered volumes.

4.3. Publication of the results of auctioning procedures

On a monthly basis, GME publishes data and information (in aggregated form) about GO bilaterals resulting from the GO auctioning procedures referred to in article 37 of the P-GO Rules.

On its www.mercatoelettrico.org website, in the “Market results” section, GME publishes the following data:

- a) Volume and type of registered GOs, with the related generation period;
- b) Minimum price and maximum price;
- c) Average price weighted for the registered volumes.

5. Movements in the ownership accounts associated with the same Participant

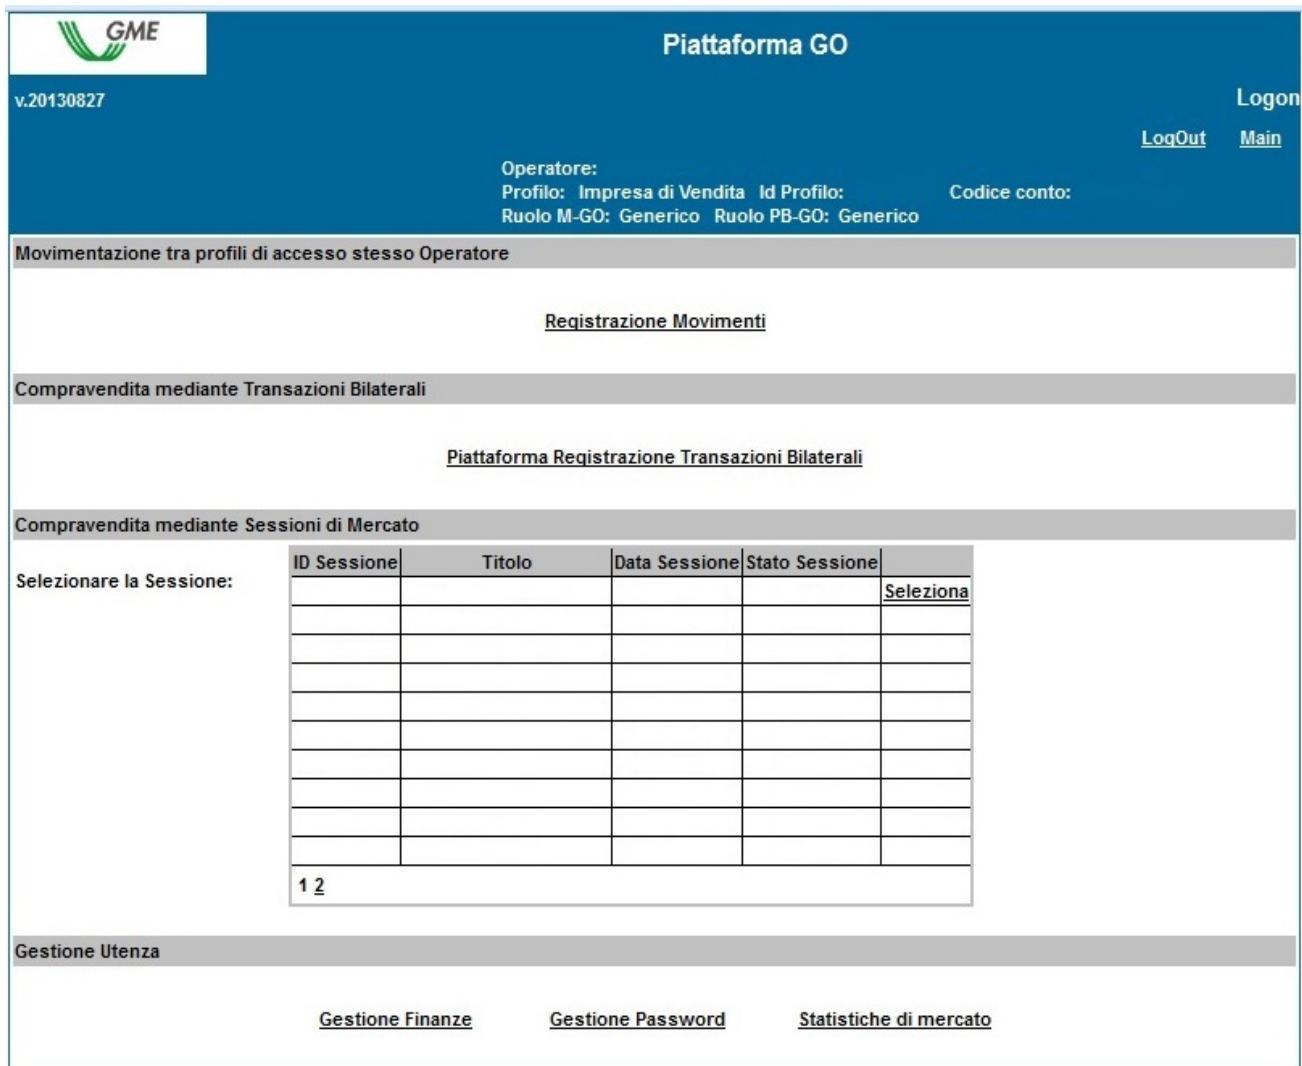

Participants with multiple access profiles may move their GOs from one of their ownership accounts to another of their ownership accounts, associated with the related access profiles, by using the appropriate option available on the P-GO.

These movements will not give rise to the payment of fees and will not be entered into GME’s GO statistics.

To access the platform of registration of GO movements between access profiles, select the link available at www.mercatoelettrico.org, in the “The markets/access to GME’s markets/P-GO/access to the P-GO” section and **enter the ID Profilo (profile ID)** and the **password** specified upon registration (para. 2.3).

From the main screen (Figure 23), you may access the “**Registrazione Movimenti**” (registration of movements) platform by clicking on the related link. This option will not be available for Participants having a single active ownership account.

Figure 23

The screenshot shows the GME Piattaforma GO interface. At the top, there is a header with the GME logo, version v.20130827, and links for Logon, LogOut, and Main. Below the header, the page title is "Piattaforma GO". The main content area has several sections:

- Movimentazione tra profili di accesso stesso Operatore**: This section contains a link labeled "Registrazione Movimenti".
- Compravendita mediante Transazioni Bilaterali**: This section contains a link labeled "Piattaforma Registrazione Transazioni Bilaterali".
- Compravendita mediante Sessioni di Mercato**: This section includes a table titled "Selezionare la Sessione:" with columns: ID Sessione, Titolo, Data Sessione, Stato Sessione, and Selezione. The table has 12 rows. A link "1 2" is located below the table.
- Gestione Utenza**: This section contains links for Gestione Finanze, Gestione Password, and Statistiche di mercato.

5.1 Registration of a movement

In the “**Registrazione Movimenti**” (registration of movements) section, click on “**Nuovo Movimento**” (new movement) (Figure 24).

Figure 24

The screenshot shows the GME Piattaforma GO interface. At the top, there is a header bar with the GME logo, version v.20130827, and links for LogOut and Main. Below the header, the page title is "Piattaforma GO". The main content area is titled "Registrazione Movimenti". At the top of this section, there are two buttons: "Nuovo movimento" on the left and "Movimenti validati" on the right. Below these buttons, a green bar displays the text "Movimenti in Attesa di Elaborazione da Parte del GSE" and a link "Aggiorna Lista". A message box below the bar states "Nessun movimento in attesa di elaborazione da parte del GSE".

- **Type:** select the reference year and the related type of GOs covered by the movement;
- **Generation country:** select the country of generation or the “non specificato” (not specified) option;
- **Generation period:** select the generation period by specifying the month “da” (from) ... “a” (to)....; if you wish to specify a single month, e.g. “gennaio” (January), select “da Gennaio”... (from January).... “a Gennaio” (to January);
- **Support received:** you may specify whether you received a support for generation by selecting “SI/NO” (YES/NO) or “NON SPECIFICATO” (not specified);

- **RECS attribute:** you may specify the RECS attribute among the data about the bilateral transaction by selecting “SI/NO/PARZIALE” (YES/NO/PARTIAL) or “NON SPECIFICATO” (not specified);
- **Volume:** specify the volume of GOs to be moved to another account;
- **Receiver:** select the access profile to the account of which the specified GOs are to be moved.

After pressing “**Inserire Movimento**” (enter movement), the movement will be deemed to have been executed and will not need confirmation by the operating profile of the “destinatario” (receiver).

You may view all the movements made in the “**Movimenti validati**” (validated movements) section (Figure 24).
